

## Faculty Positions

Department of Physics and Institute of Astronomy  
National Tsing Hua University, Hsinchu, Taiwan

The Department of Physics and Institute of Astronomy at National Tsing Hua University (NTHU) in Hsinchu, Taiwan, invite applications for a tenure-track faculty position. Candidates from, but not limited to, the following areas are strongly encouraged to apply: high energy physics, condensed matter physics, AMO (atomic, molecular and optical) physics, and astronomy and astrophysics.

NTHU is one of the top-tier universities in Taiwan. The Department has strong research groups covering a wide range of projects in particle and astro-physics, including the ATLAS Experiment at the Large Hadron Collider at CERN. More information about the Department can be found in <http://phys.web.nthu.edu.tw/bin/home.php?Lang=en>

The position can be made at all faculty levels to match the candidates' research interests and experiences. Research and teaching experiences beyond Ph.D. are preferred. The successful candidate is expected to teach at both undergraduate and graduate levels, and develop competitive research programs with global impact. Proficiency in Chinese is preferred but not required.

Applicants should submit a CV, a list of publications, at most five representative works, and a description of research and teaching plans. The candidate should also arrange at least three reference letters to be sent to:

### Personnel Committee

Department of Physics, National Tsing Hua University,  
No. 101, Sec. 2, Kuang Fu Road, Hsinchu 30013, Taiwan.

Applications can be sent via postal mail or e-mail to [personnel@phys.nthu.edu.tw](mailto:personnel@phys.nthu.edu.tw). Application material for the first batch must be received by September 15, 2019. If successful, the earliest employment starts on February 1, 2020. Additionally, deadline for the second batch is November 15, 2019 and employment starts on August 1, 2020.
