

Würzburg University, Institute of Physics
has the following opening in the
Experimental Particle Physics Group
Junior Faculty Position (A13)
Physics at the LHC with ATLAS

The Würzburg group does experiments at the Large Hadron Collider LHC (CERN) within ATLAS, and carries out physics analysis and detector hardware developments in the field of muon detectors for LHC. Applicants are expected to have a strong interest in LHC-Physics, in particular Physics beyond the Standard Model or the precision determination of the W mass. They are also expected to contribute to the hardware development in Würzburg.

The position is a Junior Faculty Position (A13) with the possibility to acquire a "Habilitation". Salary and benefits follow the German standards for state officials. The duration is a initial period of three years (Beamter auf Zeit) which can be extended by a second three year period.

The position can be filled immediately. Interested candidates are requested to submit their CV and professional experience together with at least 2 letters of recommendation. The University of Würzburg is an equal opportunity employer and encourages applications from women. Disabled applicants with the same qualifications as other candidates are preferably employed.

Applications should be sent until May 20th 2018 to:

University of Würzburg
Lehrstuhl für Physik und ihre Didaktik
Emil-Hilb-Weg 22
97074 Würzburg
