

## **Call for nominations – Nomination sought for a position of Director at the Max Planck Institute for Physics, Werner Heisenberg Institute.**

The MPI for Physics, Werner Heisenberg Institute, expects to have an opening for a director and scientific member of the MPG in the broad field of Experimental Particle and Astroparticle Physics, and in related research areas. Max Planck Directors are international leaders in their respective field, pursue an ambitious research agenda within their groups, and lead the institute jointly with their director colleagues.

Directors enjoy academic freedom and benefit from a diverse, international, excellent research environment, outstanding infrastructure, and long-term scientific funding. The MPG seeks to achieve gender equality and diversity and is particularly interested in appointing excellent female scientist.

Self-nominations are welcome.

Please send nominations of suitable candidates, including rising stars, to the institute's Managing Director Prof. Dr. Dieter Lüst (at [luest@mpp.mpg.de](mailto:luest@mpp.mpg.de)) until **29th February 2024**.

All nominations will be treated confidentially.
